**Dear Parent and Student,**

**The Legacy HS JROTC portraits and composite prints are still available for purchase.**

***But hurry! The online gallery will expire on April 18, 2019!***

**The composite can be viewed [here](#).**

**Or copy and paste this URL into your browser:**

<https://pixelprairieimagingervices.shootproof.com/gallery/8698868/>

**To view the portrait gallery, [click here](#).**

**Or copy and paste this URL into your browser:**

<https://pixelprairieimagingervices.shootproof.com/gallery/8552101/>

**Both galleries can also be found by going to [PixelPrairie.com](http://PixelPrairie.com) and clicking on the Galleries/Composite Portraits tab. Just locate your group and click on the name.**

**Each student has their own album of poses. They are alphabetized by first name.**

**Make sure to make use of the image editing tools available to crop your image exactly as you wish it to appear.**

**Proofs are not retouched, but all print products will be retouched. This includes, blemishes, shine, any red skin hue, and minor uniform retouching.**

**Name embossing on prints 5"x7" and larger is now available. Just click on the "Add-ons" tab in your cart.**

**New!**

**A Video Clip of your cadet's poses may now be purchased for your smart phone. All album poses are presented in an attractive slide show video which includes a soundtrack.**

**Please note this is not an app., but a video file to be downloaded in a compressed folder, most easily done with a PC or Mac.**

**To order a Video Clip, click on the "Products" Tab of the price list pop-up.**

**Here is a sample:**

### **Questions about Print Paper?**

**Prints are offered in several different print surfaces. Here are brief explanations about each.**

**"Lustre" - Professional photo paper with a fine grain pebble texture, similar to a matte finish.**

**"Glossy" - professional photo paper with a glossy finish.**

**"Metallic" - Has a glossy finish and metallic appearance that creates images with**

**exceptional visual interest and depth. In addition to delivering rich, vibrant colors and flattering flesh tones, this paper offers century-plus image stability.**

**What are "Metals?"**

**Metal prints represent a new art medium for preserving photos by infusing dyes directly into specially coated aluminum sheets. Because the image is infused into the surface and not on it, your images will take on an almost magical luminescence.**

**If you have any questions, feel free to contact PixelPrairie for assistance at: [info@pixelprairie.com](mailto:info@pixelprairie.com)**

**It was a wonderful experience photographing these students. We hope these portraits will be enjoyed for years to come.**
